

CF52221

Digital soldering station LD 221

- Digital soldering station with soldering iron holder with integrated soldering tip storage and cleaning sponge
- for hobby and professional electronics engineers in the area of electronics, precision electronics, model making and much more
- Scope of delivery: soldering station with soldering iron, soldering iron holder with cleaning sponge, 1x soldering tip pencil shape 1.2 mm
- Packaging unit: 4 pieces
- EAN: 4001845522210

CF52221

Digital soldering station LD 221

- Power: 25 W / 230 V~ 50 Hz
- Temperature range: 200 to 480 °C
- Fast heating time: less than 55 seconds up to 350 °C
- LCD display with temperature indication
- Standby and sleep function

CF52221

Digital soldering station LD 221

- Soldering iron holder can be fixed on both sides
