# DON'T WASTE ANYMORE TIME

Fine spray systems from WAGNER enable you to work much quicker than a brush and roller. The surface quality and coverage are visibly better with a noticeable time saving to get the job finished.

## 1. PRESERVING THE ORIGINAL SURFACE TEXTURE THROUGH INTELLIGENT PAINT APPLICATION

The key advantage of the spray process lies in the fact that it is a non-contact method of paint application. The texture of the original surface is left intact – in complete contrast to the results of manual application using a roller or brush. When paint is applied to smooth surfaces manually with a brush or roller, the direct contact leaves visible traces due to the tool, such as roller outlines or brush marks on the surface. Spraying preserves the original texture even when working on textured surfaces such as woodchip wallpapers.

## 2. GOOD COVERAGE

WAGNER paint spray systems guarantee a uniform perfect coverage of paint. Compared to rollers and brushes or even spray systems from other manufacturers, the results with WAGNER equipment are visibly better. At the end of the day you deserve the best possible surface finish.

## 3. BETTER SURFACE QUALITY

Fences, furniture and other objects which are exposed to the weather need protection: The sun, wind, rain, snow, high and low temperatures and moisture attack their surfaces. The right coating makes surfaces more resistant so that you can continue to enjoy them for as long as possible. To establish which coating method offers the best added value for wood and metal, a series of tests using a range of common wood types was carried out in which the wood was coated using a conventional medium quality brush and the same materials were then coated with a WAGNER fine spray system. They were then left out in the weather. After a short time the coating on the wood which had been coated with the brush had started to break down completely. However the coating which had been applied with the paint spray gun was much more resistant.

The coat is uneven. The surface characteristics are lost.

The coat is uneven. The surface characteristics are lost.

## 4. WORK FASTER AND EASIER

WAGNER paint spray systems enable you to save time compared to working with a brush and roller. This is particularly noticeable on large surface areas but also when coating objects. On walls and ceilings there is no need to cut in corners and edges with a brush - instead the paint is applied quickly and evenly to achieve good coverage in a single coat. Edges and stripes caused by repainting with a roller are a thing of the past. Corners and areas which are difficult to access with a brush can be coated in record time with a precise adjustable paint jet.

## APPROXIMATE TIME REQUIRED\*

Object	Spray gun	4 cm brush or roller	Time saving
Dresser	ca. 25 min.	ca. 85 min.	ca. 70%
Window shutter	ca. 10 min.	ca. 70 min.	ca. 85%
Room measuring	ca. 15 min.	ca. 58 min.	ca. 75%

\* Average time excluding preparation and cleaning.

# WAGNER SEAL OF QUALITY

To provide more guidance the following contains information on our product symbols, seals of quality and technologies. They are repeated throughout the catalogue.

## QUALITY SINCE 1947

Perfect surfaces and added value are our passion. Bringing colour, protection and function to surfaces is our mission. We dedicate all of our technical expertise to your objects and products, and support you with personal service. Using innovative technologies and highly efficient, reliable and user-friendly solutions, we are constantly setting new standards in surface technology.

We offer quality: with a three-year manufacturer's warranty. That's not all: this warranty can be extended by an additional year by registering online. This means peace of mind for 4 years.

[go.wagner-group.com/3plus1](http://go.wagner-group.com/3plus1)

## CLICK & PAINT SYSTEM – CHANGE EQUIPMENT IN SECONDS

We have a wide range of accessories for our paint spraying systems that can be easily changed using the practical Click&Paint system. Switch the material and colour shade in no time at all. Arduous and flawed replacement of needle valve nozzle sets is not necessary any longer.

1. Switch to the next colour and, with it, to the next project.
2. Push the lever for loosening the spraying attachment off the airgun. Then turn the spraying attachment by 90°.
3. Push the spraying attachment off the airgun. Yet you are ready for the next attachment and the next project in another colour or with a different material.

CLICK & PAINT

# POWER FOR ALL ALLIANCE

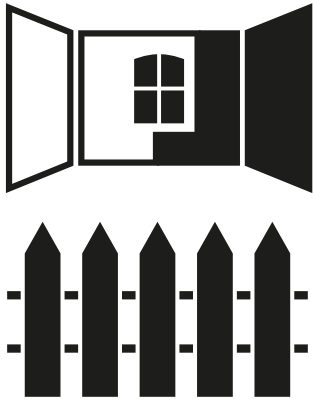

## ONE BATTERY - MANY DEVICES

The Bosch POWER FOR ALL ALLIANCE is one of the largest cross-brand battery systems in the world. Within the alliance, one battery works for all 18V appliances and therefore offers a wide range of applications for your home and garden.

WAGNER is also a partner and enables users of the 18V battery-powered tools unlimited flexibility when carrying out a variety of renovation projects. Currently the 18V batteries are compatible with more than 100 different products from 11 manufacturers. Batteries and chargers from different manufacturers are now a thing of the past. At the same time, you are doing something good for the environment and saving both money and space.

## **UNIVERSAL SPRAYER**

### **SPRAYING SYSTEMS FOR WALL PAINT, WOOD AND METAL PAINTS**

#### **FLEXIBLE AND VERSATILE - FOR PROJECTS INSIDE AND OUT**

Whether you want to go outside and paint or varnish your garden furniture or fences or stay inside and give the living room walls a fresh, new coat of paint: If you're looking for a spray system that covers the widest range of applications then the FLEXiO spray units are ideal for you. These devices allow you to apply both low- and high-viscosity materials. This makes WAGNER's multipurpose spray units exceptionally versatile.

#### **DIFFERENCE BETWEEN HVLP- AND AIRLESS TECHNOLOGY**

The „High Volume Low Pressure“ technology has its origin in industrial surface technology and allows you to achieve an excellent surface finish: material flow rate, fine adjustment of the spray jet, reduction of the spray mist and precise paint application. In contrast to the HVLP fine spray systems, Airless technology uses a pump to pressurize the material without the use of air and forces it through the nozzle. The material is atomized and reaches the object as a spray jet.

**UNIVERSAL SPRAYER W 510 FLEXiO**  
**VERSATILE PAINT SPRAYER FOR INTERIORS AND EXTERIORS**

With two spray attachments for both high and low viscosity materials, the W 510 can be used to spraying wall paints as well as wood and metal paints. The three-way adjustable nozzle provides flexibility for spraying - horizontally, vertically and also a round detailed jet.

**TECHNICAL DATA**

Performance	15 m² in 13 min
Special equipment	3-way adjustable paint jet
Paint volume	0-230 ml/min
Atomisation power	110 W
Power consumption	460 W
Max. viscosity	For particularly smooth substrates or when using viscous gel-like materials please dilute according to the paint manufacturer's instructions.
Reservoir capacity	1300 ml for wall paint 800 ml for wood & metal paints
Part number	2402017

**UNIVERSAL SPRAYER W 575 FLEXiO**  
**THE HANDY SPRAYING SYSTEM FOR EVERY PROJECT**

The W 575 FLEXiO is ideal for a variety of different painting objects. With a spray attachment specially for the application of interior wall paint and a second spray attachment for low-viscosity materials such as enamels and varnishes, the unit is suitable for a wide range of uses. With the two-stage high-performance turbine, the W 575 FLEXiO even sprays almost all materials unthinned with perfect paint application.

**TECHNICAL DATA**

Performance	15 m² in 6 min
Special equipment	· wood & metal spray attachment · two-stage air volume adjustment
Paint volume	fully adjustable, 0-500 ml/min
Atomisation power	200 W
Power consumption	630 W
Max. viscosity	Can handle all standard paints without diluting - on smooth surfaces and for particularly thick, high viscosity materials, dilute by 10%
Reservoir capacity	1300 ml for wall paint 800 ml for wood & metal paints
Part number	2397237

# UNIVERSAL SPRAYER W 590 FLEXiO THE FLEXIBLE SPRAYING SYSTEM FOR INTERIOR AND EXTERIOR USE

Thanks to its two spray attachments for low and high-viscosity materials, you are ideally equipped to apply wall and ceiling as well as wood and metal paints. The powerful X-Boost turbine sprays all conventional materials without thinning using the innovative I-Spray nozzle. The W 590 FLEXiO comes in a practical carry case.

## TECHNICAL DATA

Performance	15 m² in 6 min
Special equipment	<ul style="list-style-type: none"> <li>· practical case</li> <li>· variable air flow control</li> <li>· wood &amp; metal spray attachment</li> </ul>

Part number	2361538

# UNIVERSAL SPRAYER W 600 FLEXIO 18V THE PRACTICAL BATTERY-POWERED PAINT SPRAYER FOR UNLIMITED FREEDOM OF MOVEMENT

Now you can spray both thick and thin materials quickly and with perfect coverage and opacity: without the need of a power supply. The battery-operated W 600 FLEXiO 18V paint sprayer allows unlimited freedom of movement for tackling all your small and large projects in your home and garden. All BOSCH 18V rechargeable batteries are compatible with the W 600 FLEXiO 18V sprayer. Thanks to the spray attachments included in the product, it is suitable for exteriors and interiors using wall, wood and metal paints.

## TECHNICAL DATA

# I-SPRAY SPRAY ATTACHMENT - IN DETAIL

## **AIRLESS SPRAYER**

### **SPRAYING SYSTEMS FOR WALL PAINT, WOOD AND METAL PAINTS WITH HEA TECHNOLOGY**

#### **AIRLESS SPRAYERS OF THE NEW GENERATION - WITH HIGH EFFICIENCY AIRLESS TECHNOLOGY**

Control Pro stands for a revolutionary generation of airless sprayers, equipped with a completely new technology - High Efficiency Airless (HEA). This combines innovative nozzle technology with a highly efficient but low-pressure pump.

#### **SPRAYING SYSTEMS WITH HEA-TECHNOLIGY**

Achieving the perfect result more quickly and more accurately as well as with 55% less overspray with WAGNER HEA Technology. The revolutionary generation of WAGNER High Efficiency Airless sprayers combines innovative nozzle technology with a highly efficient yet pressure-reduced pump.

**CONTROL 150 M**  
**THE PERFECT GATEWAY TO WAGNER'S WORLD**  
**OF AIRLESS PAINT SPRAYING**

The compact and flexible solution for all do-it-yourself enthusiasts. Thanks to the combination of easy-to-fill paint tank, comfortable carrying option and innovative High Efficiency Airless (HEA) Technology, spraying with the Control 150 M will turn into an unprecedented experience. Whether garden fence or carport, basement wall or ceiling - you have never applied paint, lacquer or varnishes this quickly and consistently before.

**TECHNICAL DATA**

Special equipment	<ul style="list-style-type: none"><li>· high-quality airless gun</li><li>· 7.5 m airless hose</li><li>· 311 and 515 HEA swivel nozzles for high and low-viscosity materials</li><li>· filter kit</li></ul>
Paint volume	fully adjustable, 0-900 ml/min
Spraying pressure	110 bar
Power consumption	350 W
Reservoir capacity	5500 ml
Gun	Airless gun HEA T2 Gun
Hose length	7.5 m
Part number	2394312

## CONTROL PRO 250 M EASY AND HIGH QUALITY PAINTING

The Control Pro 250 M is a compact airless paint sprayer with a carry handle, which is designed for experienced DIY'ers, maintenance personnel and crafts people with infrequent spray painting projects. The material is atomized using High Efficiency Airless (HEA) technology with a reduced pressure, generating perfect coverage with minimum overspray. Combined with a new nozzle design, this Airless spray system offers maximum control and professional results without any streaking. It allows you to work with all water and solvent based paints, varnishes and wood preservatives as well as emulsion and latex paints. Thanks to the high-quality Airless gun with two-finger trigger, maximum operating comfort is guaranteed. The 9-meter hose is extremely flexible and offers a wide working radius.

### TECHNICAL DATA

Special equipment	311 und 517 HEA reversible nozzles for high and low-viscosity liquids
Paint volume	1.25 l/min
Spraying pressure	110 bar
Power consumption	550 W
Gun	Control Pro Airless Gun Hybrid
Hose length	9 m
Part number	2371053

## CONTROL PRO 250 R AIRLESS PAINT SPRAYER FROM THE LATEST GENERATION – USER-FRIENDLY AND PRECISE

The Control Pro 250 R is a compact airless paint sprayer with a carry handle, which is designed for experienced DIY'ers. It allows you to work with all solvent and water based paints, varnishes and wood preservatives as well as emulsion and latex paints.

### TECHNICAL DATA

Special equipment	311 und 517 HEA reversible nozzles for high and low-viscosity liquids
Paint volume	1.25 l/min
Spraying pressure	110 bar
Power consumption	550 W
Gun	Control Pro Airless Gun Hybrid

Part number	2371069

CONTROL PRO 275 M

HIGHLY EFFICIENT AND CONVENIENT PAINT APPLICATION

The Control Pro 275 M is a compact airless sprayer designed for the experienced DIY'ers to handle all painting tasks. Using High Efficiency Airless technology the material is atomised with reduced pressure. This reduces overspray and provides perfect coverage. Combined with a new nozzle design, this airless sprayer offers maximum control and guarantees streak-free, perfect paint coverage.

TECHNICAL DATA

Special equipment	311 und 517 HEA reversible nozzles for high and low-viscosity liquids
Paint volume	1.25 l/min
Spraying pressure	110 bar
Power consumption	550 W
Gun	Control Pro Airless Gun Hybrid
Hose length	9 m
Part number	2443409

CONTROL PRO 350 M

VERSATILE AND MOBILE

Powerful and mobile Airless paint sprayer for all painting jobs, including medium to large objects, for experienced DIY'ers, maintenance personnel and crafts people with spray painting projects. Equipped with High Efficiency Airless technology, utilising reduced pressure and a new innovative nozzle, the Control Pro 350 M guarantees streak-free, perfect paint coverage. All solvent and water based paints, varnishes and wood preservatives as well as emulsion and latex paints can be used, with up to 55% less overspray compared with conventional Airless spraying. The high-quality Airless gun with two-finger trigger and 15-meter, ultra-flexible hose offers maximum operating comfort. The cart with telescopic handle saves space while transporting and storing the device and is easy to moving around the workplace.

TECHNICAL DATA

Special equipment	311 und 517 HEA reversible nozzles for high and low-viscosity liquids
Paint volume	1.50 l/min
Spraying pressure	110 bar
Power consumption	600 W
Gun	Control Pro Airless Gun Hybrid
Hose length	15 m
Part number	2371057

**CONTROL PRO 350 R**  
**WITH THE LATEST AIRLESS SPRAY TECHNOLOGY**  
**FOR UNIFORM AND EFFECTIVE PAINT APPLICATION**

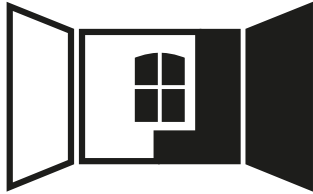

Control Pro 350 R represents a new generation of revolutionary airless paint sprayers based on a completely new technology – High Efficiency Airless (HEA). The new nozzle design allows a softer spray jet, so you always get streak-free results with perfect coverage when working with emulsion, varnish and other paints.

**TECHNICAL DATA**

Special equipment	311 und 517 HEA reversible nozzles for high and low-viscosity liquids

Part number	2371073

# WALL PAINT

Wall Sprayer

19

Wall Roller

20

## GET IT ON THE WALL!

### SPRAY ONCE RATHER THAN BRUSHING X TIMES

Regardless of whether you are just moving in or it's simply time for a new coat of paint - ideally you want the job to be completed quickly, be enjoyable and above all produce perfect results.

With WAGNER you can do all three. Our innovative paint systems for emulsion and internal wall paint applied either by sprayer or roller with integrated reservoir. No more brush hairs in the paint, no drips or mess, no bending or stretching and above all - excellent results.

In just one coat you can achieve uniform coverage with our wall paint spray systems to save you having to complete a second or even a third coat including waiting for the drying time.

It enables you to make your dreams come true. Have fun with it - and get that paint onto the wall.

**WALL SPRAYER W 450**  
**THE LIGHTWEIGHT PAINT SPRAYING SYSTEM**  
**FOR INTERIOR WALLS**

The W 450 paint spraying system for walls and ceilings makes painting simple and fun. The W 450 not only enables you to re-spray walls much faster than using a brush or a roller, it can also tackle corners and edges without needing to cut in with a brush. You can also precisely spray around doors and windows as the paint jet and the paint volume is fully adjustable.

**TECHNICAL DATA**

Performance	15 m² in 10 min
Special equipment	-
Paint volume	fully adjustable, 0-230 ml/min
Atomisation power	130 W
Power consumption	460 W
Max. viscosity	will handle most internal wall paint maximum 10% diluted
Reservoir capacity	1300 ml
Hose length	1.8 m
Part number	2361524

## WALL ROLLER EASYROLL THE SIMPLE SOLUTION FOR MANUAL PAINT APPLICATION

Roller-painting has never been simpler: You prepare the paint, connect the suction system to the paint tank and fill the unit with paint. You then pump the paint manually into the roller using the power trigger. Decide for yourself how quickly you want to work. No more drips and mess! Much easier to use and cleaner than a conventional roller.

### TECHNICAL DATA

Performance	15 m <sup>2</sup> in 12 min
Special equipment	reservoir capacity for an area of approx. 5 m <sup>2</sup>
Roller width	23 cm
Pile height	12 mm
Reservoir capacity	550 ml
Part number	2419944

## CLEANLY ROLLED!

The process is as follows:

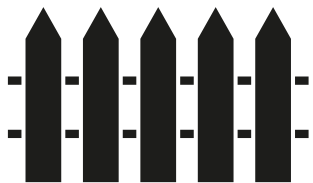

1. The paint is fed through the roller arm into the inner roller with the help of a trigger.

2. Thanks to the perforated structure of the roller, the paint is evenly distributed in the pile. Since most of the paint is not on the outside of the roller, there is no spattering during rolling, in contrast to conventional rolling.

# WOOD & METAL SPRAYER

## Spraying systems Wood&Metal with HVLP technology

### GET THAT COATING ON!

#### SIMPLE AND PERMANENT PROTECTIVE COATINGS

Many objects outside the house must be regularly protected from the weather as well as wood and metal inside your home. So whether it is a garden fence, a bannister, window shutters, furniture, doors or radiators - recoating is a lot of work and it's hardly a pleasure with a brush. Fortunately there are WAGNER's spray systems.

Fine spray systems and manual spray guns win hands down over brushes when it comes to the application of wood and metal paints. They enable you to work much quicker and can also reach difficult to access areas such as corners and edges. You can achieve smooth, homogeneous surfaces in a single coat. The excellent coverage means that spraying your items provides them with much better protection against the weather.

That means you can make your home gleam like new in no time and you will enjoy every minute of it.

**WOOD&METAL SPRAYER W 125**  
**LIGHTWEIGHT AND COMPACT PAINT SPRAYING**  
**SYSTEM IDEAL FOR FIRST-TIME USERS**

Ideal introduction to the world of paint spraying for first-time users. Compact size and light weight for fatigue-free working. Intuitive user-friendly settings ensure easy handling. Perfectly suited for small to medium-sized projects both indoors and outdoors thanks to the three-way adjustable spray jet. It offers horizontal, vertical and detailed spraying. Perfect application of enamels, varnishes, protective wood-staining products, primers, oils and other liquids.

**TECHNICAL DATA**

Performance	5 m² in 10 min
Special equipment	-
Paint volume	150 ml/min
Atomisation power	65 W
Power consumption	350 W
Max. viscosity	100 DIN-sec
Reservoir capacity	600 ml
Part number	2409303

**WOOD&METAL SPRAYER W 150**  
**THE COMPACT SPRAYING SYSTEM**  
**FOR PAINT AND VARNISH**

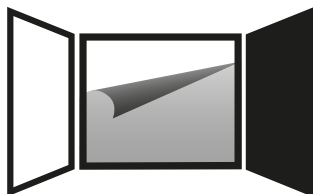

The W 150 paint and varnish spraying system is ideal for projects around your home. The three-way-adjustable spray jet, which offers horizontal, vertical and detailed spraying ensures you can spray whichever way you prefer. Thanks to the unique Click&Paint system, changing colour is effortless, because other spray attachments can be simply clicked on.

**TECHNICAL DATA**

Performance	5 m² in 10 min
Special equipment	-
Paint volume	0-140 ml/min
Atomisation power	70 W
Power consumption	300 W
Max. viscosity	100 DIN-sec
Reservoir capacity	600 ml
Part number	2359328

# WALLPAPER STEAMER

## REMOVING WALLPAPER IN AN ENVIRONMENTALLY FRIENDLY AND SIMPLE WAY

You're looking forward to a change of wallpaper - but before the new one can be put up, the old one must first come off. And that can be quite a pain if you don't use our steam wallpaper removers. They work without the need for lengthy soaking and tedious scraping!

With the WAGNER steam wallpaper strippers, you not only avoid stress, but also protect your health and the environment. All of our devices work with steam and without any chemical additives. The light steam plates make it very easy for you to work on the wall. And the Power- Steam-Control automatic switch-off protects against overheating - so you always work safely.

In no time at all, your old wallpaper is replaced with beautiful new wallpaper.

## STEAMFORCE UND STEAMFORCE PLUS THE NEWEST TOP MODELS

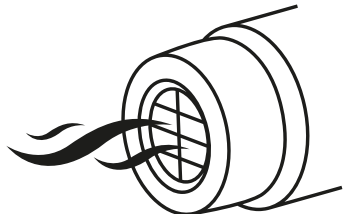

The wallpaper steamer SteamForce uses the power of steam for the easy and environmentally friendly removal of wallpaper without chemical additives. A long steaming time allows large surfaces to be processed without breaks. Tireless working is made possible thanks to the light and handy steamer plate. The high working speed is particularly evident when removing stubborn wallpaper. Available in two versions: without and with accessories. SteamForce Plus also comes with a small steamer plate and a scraper.

### TECHNICAL DATA

Steam time	max. 70 min.
Special equipment	large steamer plate (SteamForce), large and small steamer plate and scraper (SteamForce Plus)
Reservoir capacity	4 l
Power consumption	2000 W
Hose length	3.7 m
Steam plate size	20 x 28 cm (große Dampfplatte) 7.5 x 15 cm (kleine Dampfplatte)
Part number	2410385 (SteamForce) 2404466 (SteamForce Plus)

# HEAT GUN

## **VERSATILE TOOL FOR 101+ APPLICATIONS WAGNER FURNO - FOR HOME AND GARDEN PROJECTS!**

WAGNER heat guns do more than just quickly remove paint and varnish. The Furnos are ideal for bending plastic pipes, removing vinyl tiles, soldering copper pipes, heat shrink tubing, roofing, lead work, defrosting, drying and a range of automotive applications.

WAGNER Furno heat guns provide revolutionary design and advanced technology for unrivalled comfort, usability and safety.

This combined with unique features extends the range of applications to remove, shape and fix items around your home and garden. For example they had higher airflow for increased speed.

**FURNO 100**  
**THE MODEL FOR CREATIVE DIY-ERS**

FURNO 100 is perfect for creative people who like to do things themselves, amateur bakers and for small jobs around the house. With two temperature levels of 230°C and 360°C, it can be used to complete a wide range of projects. As well as stripping paint, it can also be used to mould, cook and bake, craft and much more - it's a real all-rounder. The gun offers three positions for perfect balance and comfort while working. The fold-out wire is perfect for hands-free working and the pin position is especially suitable for more precise working. A thermal automatic shut-off function ensures safety.

**TECHNICAL DATA**

Temperature settings	2
Temperature range	230°C and 360°C
Special equipment	3 grip positions, enable for example hands-free work
Airflow capacity	150 l / min.
Power consumption	150 W
Cable length	2 m
Part number	2398546

**FURNO 300**  
**DIY HEAT GUN FOR HOME AND GARDEN PROJECTS**

This DIY heat tool is ideally suited for first time users, small projects or light work in and around the home. This electric heat gun is a safe and effective alternative to using a blow torch. With two temperature set-tings of 400°C and 575°C you can accomplish a range of tasks. The gun includes an ergonomical-ly designed handle for perfect balance and comfort.

**TECHNICAL DATA**

Temperature settings	2
Temperature range	400°C and 575°C
Special equipment	practical hanger
Airflow capacity	675 l / min.
Power consumption	1600 W
Cable length	2 m
Part number	2359348

**FURNO 500**  
**THE POWERFULADAPTABLE HEAT GUN**

This professionally rated electronic heat gun has a graphic LED display which illuminates the 6 temperature settings from 60°C to 600°C for a wide range of applications. The display has a memory function to recall the last settings. The gun features two air flow settings and a cool down mode to prolong the heater element life.

**TECHNICAL DATA**

Temperature settings	6
Temperature range	60°C to 600°C
Special equipment	concentrator- and glass protection nozzle
Air flow capacity	800 l / min.
Power consumption	2000 W
Cable length	2 m
Part number	2359352

**FURNO 550 18 V**  
**THE MODEL FOR COMPLETE FREEDOM OF MOVEMENT**

Discover complete freedom of movement with this battery-powered Furno 550 18V heat gun for all your DIY projects. With five different temperature settings between 300°C and 600°C, the heat gun is ideal for a wide a wide range of applications in your home and garden.

**TECHNICAL DATA**

Temperature settings	5
Temperature range	300°C to 610°C
Special equipment	<ul style="list-style-type: none"> <li>· Reflector and wide jet nozzle</li> <li>· Compatible with BOSCH POWER FOR ALL ALLIANCE 18V battery</li> </ul>
Air flow capacity	110 l / min.
Part number	2420168

**FURNO 750**  
**PERFECT FOR MULTIPLE PROJECTS**

This professionally rated electronic heat gun has a LCD Digital display allowing you to have precise heat control with fully adjustable temperature range from 50°C to 630°C for a vast range of applications. The display has a memory function to recall the last settings. The gun features 6 air flow settings and a cool down mode to prolong the heater element life.

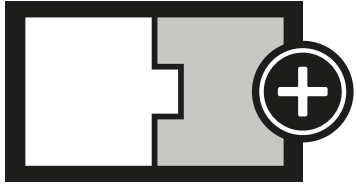

**TECHNICAL DATA**

Temperature settings	variable
Temperature range	50°C to 630°C
Special equipment	<ul style="list-style-type: none"> <li>· practical case</li> <li>· 5-in-1 scrap</li> <li>· concentrator- and glass protection nozzle hook nozzle, wide concentrator</li> </ul>
Air flow capacity	820 l / min.
Power consumption	2000 W
Cable length	2 m
Part number	2359358

**VERSATILE AND EASY**

You will also find all the accessories you need to tackle all your DIY projects at WAGNER. To make your work even more pleasant, efficient and more fun!

# ACCESSORIES FOR SPRAYING SYSTEMS WITH **CLICK & PAINT®** TECHNOLOGY

## **SPRAY ATTACHMENT WOOD&METAL EXTRA »BRILLIANT«**

For smooth objects. The enhanced nozzle and air system ensure high quality, brilliant finishes. 600 ml

**Part number:** 2361738

## **SPRAY ATTACHMENT WOOD&METAL EXTRA »DETAIL«**

For spraying small items. Also suitable for completing detail work cleanly and precisely. 250 ml

**Part number:** 2361744

## **SPRAY ATTACHMENT WOOD&METAL EXTRA »CORNER & REACH«**

for hard to reach areas such as radiators and cabinet corners. The paint jet is diverted through 25° at the end of the attachment. 600 ml

**Part number:** 2361742

## **SPRAY ATTACHMENT WOOD&METAL EXTRA »STANDARD«**

Suitable for a wide range of uses and ideal for producing a uniform, perfect coating on small to medium objects. 800 ml

**Part number:** 2361730

## **SPRAY ATTACHMENT WALL EXTRA »LARGE«**

This accessory enables you to continue spraying for a long time without having to stop. 1400 ml

**Part number:** 2361736

## **SPRAY ATTACHMENT WALL EXTRA »I-SPRAY«**

For the easy application of interior emulsion and latex paints. 1300 ml or 1800 ml

**Part number:** 2361746 (1300 ml) / 2361749 (1800 ml)

## **SPRAY ATTACHMENT WALL EXTRA »TEXTURE«**

Spray attachment designed especially for decorative plasters and textured paints with a grain size of up to 1 mm and primers. High-quality and streak-free finishes, thanks to even application of textured paints. 1300 ml

**Part number:** 2361754

## **SPRAY ATTACHMENT GRAVITY GUN**

For an even application of wood and metal paints, for small to medium projects. 150 ml and 600 ml

**Part number:** 2412884

## **UNIVERSAL EXTRA »EXTENSION«**

Walls and ceilings can be sprayed very easily with this thanks to its greater range and is also ideal for the application of lacquers, stains and varnishes on floors and decking. 60 cm

**Part number:** 2361756

# ACCESSORIES FOR AIRLESS SPRAYING SYSTEMS

## HEA TIPS

Up to 55% less overspray and perfect coverage and streak-free results thanks to softer spray jet.

**HEA TIP 311:** for low-viscosity water and solvent-based materials including varnishes, lacquers, oils and release agents - **Part number:** 0517311

**HEA TIP 517:** for viscous materials such as latex paints, emulsions and rust protection paints - **Part number:** 0517517

**HEA TIP 619:** for large areas and viscous materials such as latex paints, emulsions and anti-corrosive paints - **Part number:** 0517619

## SPRAY GUN ASSEMBLY (INCL. NOZZLE HOLDER)

Lightweight gun with ergonomic handle and extra-light two-finger trigger for maximum operating comfort. 1-finger safety catch - release and spray with one hand  
**Part number:** 0517100

## AIRLESS SCHLAUCH

Flexibler und langlebiger Schlauch für sicheres und kontrolliertes Arbeiten. Große Reichweite dank 15 m Länge und geringes Gewicht für höchsten Bedienkomfort. - **Part number:** 0517802

## NOZZLE HOLDER

Perfect nozzle fit and suitable for all HEA TIP nozzles - **Part number:** 0517200

## GUN EXTENSION 30 CM

Ergonomic and comfortable paint application on ceilings, high walls or floors. Extension (G thread) including nozzle holder for high-reach areas - **Part number:** 0517700

# ACCESSORIES FOR ROLLER

## PAINT ROLLER 12 MM

For smooth and slightly textured surfaces, width 23 cm  
**Part number:** 0998230

## PAINT ROLLER 20 MM

For slightly textured and rough surfaces, width 23 cm  
**Part number:** 0245717

# ACCESSORIES FOR CORDLESS DEVICES

## STARTER-KIT 18 V

18V lithium-ion battery (PBA 18V 2.5 Ah W-C) and charger (AL 1810 CV)  
**Part number:** 2448616

# ACCESSORIES FOR HEAT GUNS

## REFLECTOR NOZZLE

Ideal for thawing frozen pipes or for using with heat shrink tubing.  
**Part number:** 2366225

## WIDE CONCENTRATOR NOZZLE 75MM

For removing paint from large surfaces and to shape plastics.  
**Part number:** 2366223

## CONCENTRATOR NOZZLE 14MM

Removes paint from corners, crevices, moulding, beading and architrave.  
**Part number:** 2366222

## GLASS PROTECTION NOZZLE 75MM

deflects heat away from glass and fragile surfaces.  
**Part number:** 2366224

## UNIVERSAL NOZZLE KIT

With 14 mm Concentrator, 75 mm Wide Concentrator and Glass Protection Nozzle.  
**Part number:** 2370673

## 5 IN 1 SCRAPER

For removing paint and varnish from surfaces.  
**Part number:** 2366227

## PAINT SCRAPER KIT + 3 BLADES

The paint scraper kit will efficiently strip paint. Includes a Universal blade, paint scraper and blade holder. Ideal for restoration work, stairs, bannisters, window frames etc.  
**Part number:** 2374192

## PRO ADVANCED - PAINT SCRAPER KIT

Includes a paint scraper and handle plus 5 unique blades for different surface types Ideal for restoration work, stairs, bannisters, window frames etc.  
**Part number:** 2370677

# ACCESSORIES FOR HEAT GUNS

## SHRINK TUBING (4.8 – 9.5 MM)

The shrink tubing for shrinking onto cables. Pack of 32 supplied with: 4.8 mm Red, 4.8 mm Yellow, 6.4 mm Black and 9.5 mm Blue.

**Part number:** 2370676

## HEAT-SHRINK CRIMP CONNECTORS (0.1 – 5.5 MM)

For repairing electrical cables. 2 x 0.5 mm / 3 x 1.25 mm  
3 x 2.0 mm / 2 x 5.5 mm.

**Part number:** 2370675

## WIRING KIT + CONCENTRATOR NOZZLE + REFLECTOR NOZZLE

The reflector nozzle is designed for soldering pipe work, heat shrink tubing, thawing frozen pipes and bending plastic pipes. Ideal for a concentrated heat flow for removing paint in awkward corners, crevices, mouldings, beading or architraves 100 heat shrink tubes in the following sizes.

**Part number:** 2370674

# ACCESSORIES FOR STEAMER

## STEAMER PLATE, LARGE (20 X 28 CM)

Lightweight steamer plate with even steam distribution for fast and efficient processing of large surfaces.

**Part number:** 2414572

## STEAMER PLATE, SMALL (7 X 14 CM)

Small steamer plate for working in hard-to-reach places and small areas.

**Part number:** 2414573

## STEAMER HOSE (3.7 M)

Heat-insulated hose with long reach thanks to its 3.7 m length.

**Part number:** 2414575

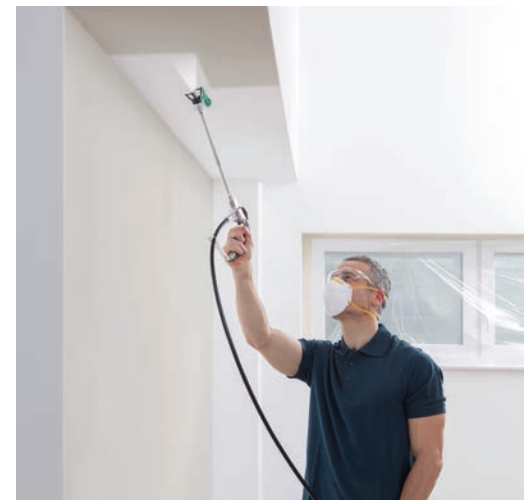

## SCRAPER

Practical scraper for easy removal of old wallpaper.

**Part number:** 2414574
